

Jesus Gets The Good Oil

June 18, 2009

The Jesus Racing Team is proud to announce their Falcon V8 Ute (which races in the Yokohama V8 Ute Series) will now carry the famous 'Mobil 1' signage.

Jesus Racing Driver Andrew Fisher says the team has been in discussions with Mobil 1 distributors Lubes Direct.

"The guys from Lubes Direct love the racing and feel the profile and performance of the Jesus Racing Team is a great connection point for their company," says Andrew.

"We trialed Mobil 1 in the Tasmanian round of the series, and based on our results, feel the product performed exceptionally well.

"Our horsepower down the back straight was, without doubt, one of the secrets to our success in Symmons Plains, and no doubt having Mobil 1 on board gave us an advantage in that area.

"We had the new 'control engine' on board as well, and the guys at Lubes Direct have been working with the category engine builder to ensure the oil we run is the best available."

Following the Tasmanian round of the Yokohama Ute Series the final touches were put to the agreement, which sees the Jesus Racing V8 Ute carrying the famous Mobil 1 brand.

"I am looking forward to building a strong relationship with Mobil," says Andrew. "I feel our performance on the track, and the many events we attend away from the track, will provide them with exceptional value."

The Jesus Racing team will be back on track this weekend in Darwin as part of the V8 Supercar Round.
